b. TIME: 1:30 P.M. EDT

c. PLACE: Dirksen Senate Office Bldg, Room SDG-45

2. The attached Page 45 of 45 replaces the original page. New information is underlined and in bold type.

M1 PROPOSAL EVALUATION CRITERIA

---

(a) The evaluation criteria to be used by the Contracting Officer for the selection of a contractor to perform the work specified are defined below. The criteria are divided into technical and price categories which consist of subsections corresponding to those in the article entitled "INSTRUCTIONS FOR PREPARING THE TECHNICAL PROPOSAL" and the article entitled "INSTRUCTIONS FOR PREPARING THE PRICE PROPOSAL" in Section L. The technical criteria are considered by the Architect to be generally more important than price criteria. However, as the difference in technical merit between the proposals becomes less significant, the relative importance of the price will increase.

(b) TECHNICAL CRITERIA. Each offeror's proposal will be evaluated in accordance with the technical criteria listed below to determine whether it is responsive to the requirements of the RFP and are therefore acceptable. Technical criteria are listed below in descending order of importance:

1. **Corporate Experience.** The offeror's and its proposed subcontractor's experience will be evaluated to determine the extent of its experience relevant to this requirement during the last five years. Higher scores will be given to offerors whose experience with demolition/new construction of large air handling units on site, HVAC support systems including DDC controls, etc. is most extensive.

2. **Key Personnel.** The resume of your proposed Project Manager and Superintendent will be evaluated to determine the level of his/her qualifications to perform the duties required by this solicitation. Higher scores will be assigned to those offeror's whose proposed personnel have the most relevant education, training and skills. The resumes will also be evaluated to determine the extent of successful participation in similar projects within the past five years, taking into consideration degree of client satisfaction for each project. Higher scores will be given to offerors whose key personnel's relevant experience is extensive and whose past performance has been highly successful.

3. **Corporate Past Performance.** The offeror's past performance will be evaluated to determine the extent of successful completion of similar projects within the past five years, taking into consideration timeliness and degree of client satisfaction for each project. Higher scores will be given to offerors whose past performance has exhibited the most success on similar projects. In investigating the offeror's past performance, the Government will consider references submitted by the offeror and may consider information from other sources.

(c) PRICE CRITERIA. The Government will evaluate the price proposals of all firms found technically qualified. Price criteria measure not only actual dollars but also analyze the reasonableness of the Offeror's proposed price.
